

**FEATHERSTONE RIDGE PROGRAM - DENTAL CLINIC
LOCATED AT THE
UTAH STATE DEVELOPMENTAL CENTER (USDC)**

Thank you for your interest in accessing services at the Featherstone Ridge Outpatient Dental Clinic. In order to apply for services, please complete the following steps:

- Accurately complete all pages of the Request for Services form.
- Obtain and attach historical medical records of the patient.
- Obtain and attach historical dental records of the patient.

When the Request for Services and medical/dental records are received at USDC, a committee will review the request. Upon approval, a visit will be scheduled with USDC medical personnel and the actual dental appointment will be made at this time. You will be given several consent forms to complete, to be signed by the legal guardian and returned prior to the first dental appointment.

During the first dental appointment, the teeth will be cleaned, x-rays will be taken, and an evaluation will be completed, depending upon the cooperation of the client. Some minor dental work may also be performed. The USDC dental staff will make recommendations concerning the extent of dental treatment services that are needed.

If anesthesia is required, you will be given forms to be completed by the client's physician, to be signed by the legal guardian, including two witness signatures. Anesthesia forms must be returned one week prior to the scheduled dental appointment.

If you have further questions, please contact the Featherstone Ridge Dental Clinic Representative at 801-763-4164.
